C-thru Water Spot Remover

\$20.95 + GST

is a formulation that removes water spots, mineral deposits (calcium, limescale, silica, etc), soap scum, rust marks, discoloration, stains and more from hard surfaces. It is effective on virtually any hard surface; like shower glass, stainless steel, chrome, tiles, windows, ovens, ceramic and stainless cook-tops, and more.
Made right here in New Zealand, and it has been impressing customers for 20 years!
And it is very safe to use; safe on your skin, around children and pets, safe on the environment and septic tank safe.

Polish up your spot-free surfaces with these lint-free microfibre cloths!

Great for general use cleaning and can be used wet or dry on a variety of hard surfaces. When used dry, the static attracts the smallest dust and dirt particles for an efficient clean.

Only \$2.00 + GST per cloth

Fuse 0.1% Daily Bleach

\$11.99 + GST

Fuse 0.1% Daily Bleach Concentrate is ideal for both domestic and commercial use, it serves as a potent cleaner and chlorine sanitiser, meeting MOE Guidelines for ECE Centres.

Fuse Multi-Surface Cleaner

\$16.25 + GST

This mild pH cleaner is ideal for various hard surfaces, including polished floors, walls, and benches, is septic tank safe and exceeds biodegradability standards.

Fuse Dilution Trigger & Water Bottle

\$19.99 + GST

Upgrade your cleaning routine with the Fuse Dilution Trigger and Water Bottle. This innovative system incorporates a dispenser unit that utilises small cartridges of concentrated products, eliminating safety concerns and the inconvenience of mixing and storage. The package includes both the Trigger Head and Refillable Water Bottle, providing a seamless and user-friendly solution.

Fuse Glass Cleaner

\$14.60 + GST

Perfect for both commercial and domestic use, the Fuse Glass Cleaner Concentrate Cartridge ensures quick-drying, streak-free results on glass, mirrors, tiles, and chrome. Use sparingly, spray undiluted, and wipe with a dry, lint-free cloth. Ideal for squeegee window cleaning with potable water.

Fuse : Dilution On Demand

FUSE Dilution on Demand, is an innovative, high-longevity dispenser system for concentrated liquid hygiene products. It works via a trigger-bottle system that incorporates a dispenser unit utilising small cartridges of concentrated product and dilutes it within the durable sprayer head itself. This eliminates safety issues and the inconvenience of mixing and storage. A huge benefit of using this system and products is waste reduction. Although this trigger bottle system is intended to provide efficiency and safety of your facility, it was designed for sustainability as well, which means you can be sure that you are taking a very significant step toward plastic waste reduction.

Fuse Multi-Purpose Cleaner

\$14.60 + GST

This industrial-strength Fuse BioProtect Multi-Purpose Cleaner Concentrate is ideal for floors, kitchens, and bathrooms and removes organic build-up from all surfaces. Eco-friendly, non-slip and non-corrosive, it meets MOE Guidelines for ECE Centres and saves over 7 bottles from landfill.

Fuse IsoPro 3

\$14.60 + GST

This water-based formulation redefines protection against bacteria and germs on various surfaces in domestic, commercial, and industrial applications. Highly effective against oils, fats, grease, dirt, and invisible contaminants, it's safe for hard surfaces.
