- Hytec Hi-Risk Latex Gloves offer superior strength and durability for demanding tasks.
- Designed for enhanced protection against chemicals, punctures, and tears, they provide a secure, comfortable fit with excellent tactile sensitivity.
- Made from 100% synthetic nitrile latex, they are non-sterile, ambidextrous, and feature a palm-textured surface with a beaded cuff for added strength.
- Ideal for high-risk environments where reliable barrier protection is essential.
- Available in S M, L, XL, and XX-L
- 50 pack

Moss-Kill 2.5L

\$35.99

Algae, Mould, Moss & Lichen Control.

Biodegradable.

Low toxicity for plants and animals.

An ideal "Spray-on and leave" solution.

Will kill and prevent moss, mould, mildew, lichen and algae growing on most hard surfaces.

Can be used by itself or as a "preventative" program after water blasting.

Has a residual action that can prevent the activation of moss and mould spores for up to 12 months.

With a foaming base it allows applicators to see where they have applied the product to ensure complete surface coverage.

Most surfaces do not require rinsing although some aged painted surfaces may require a rinse to avoid streaking.
